

SKODA

Enyaq

Enyaq has landed.

Introducing the most powerful Škoda ever built, our first fully electric vehicle.

Available in both a long-range rear-wheel drive SUV Coupé and RS four-wheel drive SUV Coupé.

Created to conquer your aspirations, the fully-electric Škoda Enyaq is built for adventurous exploration and discovering exclusive retreats.

SKODA

Expressive Detailing

Featuring a unique Crystal Face illuminated smile, Škoda Enyaq RS grins as it passes other vehicles on the road.

Plus, with integrated full LED Matrix headlights, drivers can safely explore their galaxy of local and distant neighbourhoods.

Exterior and Range

Sparking your imagination to explore, the Škoda Enyaq arrives with a mysterious presence.

Preparing to leave is similarly impressive with animated sweeping effects across the LED indicators and a trifecta of programmable lighting effects across the tail lights.

Reach Beyond Your Expectations

Engineered with our advanced floor mounted modular MEB battery platform, Škoda Enyaq flattens range anxiety and the need for mid-journey charging.

While it's true that other electric vehicles struggle with long distances on a single charge, and power drain from frequent acceleration bursts - Škoda Enyaq is different.

Housed within an aluminium frame the battery cell modules form the car's floor and its attachment to the vehicle body make the car more structurally robust.

Sydney to Merimbula	454km
Brisbane to Moree	480km
Perth to Albany	417km
Worramel to Exmouth	476km
Brisbane to Forster	512km
Melbourne to Mount Gambier	422km
Adelaide to Hamilton	497km

SKODA

Ready. Set. Charge.

Škoda Enyaq tops up power, fast.

Fast charging stations lift the electric energy of Škoda Enyaq from 10% to 80% in less than 30 minutes.

Charging and Performance

Responsive Sports Suspension System

Wherever you take it, Škoda Enyaq RS will make an impression.

The sports chassis is wrapped in rigid horizontal lines carved into body panels to deliver advanced aerodynamics.

Equipped with adaptive dampeners and the latest elliptical technology that is easy to use, road holding remains balanced as Škoda Enyaq RS manoeuvres over the toughest of roads.

SKODA

Need Some Space?

Many early-electric vehicles only provide drivers and passenger space up front. Škoda Enyaq SUV Coupé delivers space all around.

A spacious interior, cockpit and cargo hold provide plenty of room for bicycles, golf clubs, snowboards and more.

Interior Features

ENYAQ

Love More Luxe?

On the inside, Škoda Enyaq SUV Coupé is all class.

The dashboard features two fully-digital displays. One with driving data in front of the driver and a large dashboard infotainment display.
