**Superb
Sportline 4x4**

Time to Get Some Sporty Clothing

Superb Sportline 4x4 Sedan shown with optional sunroof available at extra cost.

Dynamic design

This car can't be overlooked. A glossy black front grille and features to the sides of the air intake in the front bumper are accompanied by darkened fog lights. The sporty look of your car is also underlined with 19" VEGA anthracite alloy wheels.

Elegance can also be daring. Dynamic details in glossy black design give the Superb Sportline 4x4 a vigorous attitude. The sports chassis improves the car's aerodynamics as well as your driving pleasure.

Badge

As proof of the car's sports style there's a badge included on the front wing fenders.

Rear view

While the Škoda inscription in the back declares the car's roots, the glossy black strip between the full LED rear lights comes exclusively with the Superb Sportline 4x4. The liftback version also features the glossy black 5th door spoiler.

Lights Don't Show, They Reveal

Full LED matrix headlights and fog lights

Using the windshield camera, the full LED Matrix headlights monitor the road ahead for vehicles and upon detection incrementally adjusts the LED modules to permit continuous use of the high beam function. This ensures enhanced road lighting without dazzling other drivers. The fog lights functionality is also elevated by LED technology.

Advanced technology is made beautiful in the light design of the Superb Sportline 4x4.

Rear lights

The full LED rear lights of the Superb Sportline 4x4 feature dynamic indicators, which not only reveal the direction the vehicle will turn, but also add dynamism to the rear. The rear lights also feature C-shaped illumination, typical for the Škoda family, but with a modern twist.

For pilots and co-pilots

The dynamic design continues inside the Superb Sportline 4x4. The interior offers the atmosphere of the sports cockpit as well as maximum comfort. The car features attractive décor and upholstery, Suedia® covered ceiling in black, multifunctional sports steering wheel in perforated leather, Virtual Cockpit and LED ambient lighting running along the inside of the interior.

Sports steering wheel

The multifunctional sports steering wheel in black perforated leather with silver stitching allows you to control the radio, phone and alternatively DSG.

LED ambient lighting

You can choose your favourite colour, or complement each day with one of ten amazing colour options.

Style and functionality

Sports comfort front seats with side bolsters and integrated headrests, upholstered in a combination of Black Suedia® and leather/leatherette³ with contrast silver stitching, provide maximum comfort and support, even during a dynamic drive. The power adjustable driver's seat with lumbar support and built-in memory function come as standard. The Suedia® upholstery is also incorporated in the door panel and for added effect; the roof lining and pillars are also in black.

³ Leather appointed seat upholstery have a combination of genuine and artificial leather, but are not wholly leather. Overseas model shown, local specification may vary.

Wireless Connectivity

Superb featuring wireless Apple CarPlay® & Android Auto™*

Combining our smart car with your smartphone was always going to be a good idea. Superb featuring wireless Apple CarPlay® & Android Auto™* seamlessly connects compatible apps from your smartphone to your Škoda. So, whether you want to listen to music or receive turn-by-turn directions, you can do it all without touching your phone.

+ Superb featuring wireless Apple CarPlay® & Android Auto™* is compatible for selected apps with the latest smartphone versions of iOS and Android, active data service required, optional connection cable (sold separately).

Wireless charging / USB-C connectivity

The Superb come with an enlarged phone storage compartment, which wirelessly charges your phone while driving. This compartment is not only easily accessible, but is also suitable for large display devices. The USB-C port located in the centre console allows you to connect your external devices without the need for adaptors.

Carry Everything That Matters

Maximising space is nothing without maximising practicality. That's why we have Simply Clever solutions to keep your belongings safe. The Superb wagon offers a roomy 660 litres or 1,950 litres after folding down the rear seats, while the sedan offers 625/1,760 litres.

Jumbo box

The spacious jumbo box storage compartment is housed beneath the front centre armrest, providing plenty of room to store small belongings. The dual drinks holder with the integrated easy-open function is also conveniently located in the centre console.

Bottle holder

You will find a 1.5-l bottle holder in a spacious compartment in the front doors and 0.5-l holder in the rear doors.

Pockets on the backrest

Storage pockets on the insides of the front seat backrests can hold a mobile phone, for example, or other small items.

Overseas model shown for illustrative purposes only.

Net system

The set of nets increases the flexibility of the luggage space while tightly securing objects.

Comfort at Your Command

Technology is nothing if it doesn't simplify your driving experience. Loaded with thoughtful features and sophisticated assistance systems, the Superb will indulge you in absolute comfort and support your driving confidence, whether keeping you relaxed on longer journeys or being entertained on the go.

Overseas model shown for illustrative purposes only.

Convenience key

With the convenience key, you can lock/unlock your car and start or stop the engine without the need of physically touching your key.

Overseas model shown for illustrative purposes only.

Power tailgate and virtual pedal

The 5th door opens and closes at the mere touch of the button on the convenience key, driver's door panel or directly on the 5th door. You can also adjust the upper door position to your preferred height. For added convenience, the 5th door is equipped with the virtual pedal enabling contact-free access to the luggage compartment.

Comfort for all

In cold weather, your friends and family will really appreciate the inclusion of heated front and rear seats with a separate control function for the rear seats allowing an optimised heat setting for all occupants. Additionally, rear occupants can separately control the temperature in the 2nd row thanks to the Tri - Zone Climatronic air-conditioning system.

Virtual cockpit

The eye-catching Virtual Cockpit features an impressive 10.25" display to relay key vehicle, safety and infotainment information such as turn-by-turn navigation. The layout (view) can also be changed via the steering wheel mounted controls, from a selection of available layouts.

Power adjustable driver's seat

For the optimal seating position, we offer you the power adjustable driver's seat with lumbar support and a built-in memory function which can store three different positions.

Safety Protect Your Precious Cargo

Overseas Model shown for illustrative purposes only.

Overseas Model shown for illustrative purposes only.

Adaptive Cruise Control¹

Using the radar device situated in the front grille, this enhanced cruise control system, which operates up to speeds of 210 km/h, regulates the vehicles set speed according to the vehicle ahead and maintains a safe gap based on the selected distance parameter.

¹ Safety technologies are designed to assist the driver, but should not be used as a substitute for safe driving practices.

Lane Assist with Adaptive Lane Guidance¹

Operating at speeds above 65 km/h, Lane Assist with Adaptive Lane Guidance can help to keep the Superb centred within the lane in which it is travelling.

Traffic Jam Assist¹

This function is designed to facilitate driving in traffic jams. By controlling the engine brakes, and steering, it makes the vehicle pull away, brake, and turn to copy the movement of the surrounding vehicles (at speeds of up to 60 km/h). If lanes are not detected at speeds of up to 30 km/h, or only one lane (line) is detected at speeds of up to 60 km/h, the Follow Drive system follows the trajectory of the vehicle in front of you until lane markings are available again.

¹ Safety technologies are designed to assist the driver, but should not be used as a substitute for safe driving practices.

Side Assist¹

Using radar sensors in the rear bumper, Side Assist monitors the area beside and behind your car to detect other vehicles and cyclists up to 70m away. Upon entry of the detection zone, the system provides a visual alert to warn the driver of a potentially hazardous situation.

¹ Safety technologies are designed to assist the driver, but should not be used as a substitute for safe driving practices.

Front Assist - Predictive Pedestrian¹

The Front Assist system, using a radar device situated in the front grille, is designed to monitor the distance of the Superb to vehicles ahead. If the system detects sudden braking by the preceding vehicle it reacts, applying the emergency braking mechanism. The system, depending on travelling speed, can also detect pedestrians.

Rear Traffic Alert¹

Utilising the same rear bumper integrated sensors of the Side Assist system, the Rear Traffic Alert function helps you reverse safely from parking spaces with poor visibility by scanning for objects approaching the rear. Upon detection, an acoustic alert is issued, and if required to avoid collision, the brakes applied thanks to the Manoeuvre Braking Assist feature.

Park Assist¹

Minimise the hassle of parking in tight spots with Park Assist. This feature utilises the front and rear parking sensors to scan the desired parking space (parallel and perpendicular) before automatically parking the vehicle for you.

¹ Safety technologies are designed to assist the driver, but should not be used as a substitute for safe driving practices.

Additional Experts on Board

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur on route, additional assistance with multiple functions are on hand to help or fill in for the driver.

Matrix Beam Function

The full LED Matrix headlights of Superb feature the Matrix Beam Function, permitting continuous high beam use without dazzling other drivers. Utilising the windshield camera, the matrix beam function reacts to the environment, turning off light modules that affect the visibility of other drivers whilst leaving on modules that do not to provide maximum road visibility.

Crew Protect Assist¹

This assistance system provides increased protection for front-row passengers in critical situations that potentially result in a collision or rollover by automatically initiating the closure of the side windows to leave a 5cm gap, full closure of the panoramic glass sunroof (if equipped), and tightening of seatbelts.

Multi-Collision Brake¹

In the event of an accident, the Multi-Collision Brake, automatically applies braking to prevent further uncontrolled movement of the vehicle, thus reducing the likelihood of further collisions.

¹ Safety technologies are designed to assist the driver, but should not be used as a substitute for safe driving practices.

A Safe Bet

In extreme situations, where the driver cannot actively influence the outcome, the car's passive elements take over – like airbags.

Front driver and passenger airbag

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. Overseas model show, local specification may vary.

Front and rear side airbags

These four airbags protect the pelvis and chest of the driver and other passengers in the event of a side collision.

Knee airbag

The knee airbag, which protects the driver's knees and shins, is located under the steering column.

Side curtain airbags

Upon activation, side curtain airbags create a wall, which protects the front and rear occupants against head injury.

Overseas model show, local specification may vary.

Perform Miracles

Dynamic Chassis Control (DCC) including drive mode selection

The Dynamic Chassis Control (DCC) continuously evaluates and responds to various driving behaviour (braking, acceleration, turning), adapting the dampers and steering characteristics to retain the drive mode selected by the driver. The drive mode selection, accessed via the infotainment menu, allows you to select one of five modes according to your specific requirements: Eco, Comfort, Normal, Sport or Individual.

Engines

The Superb Sportline 4x4 packs an impressive 206kW punch with 4-wheel drive.

Upholstery & Wheels

19" VEGA Anthracite alloy wheels

Weight[‡]	
Tare Mass (kg)	1735 (1765)
Roof load limit (kg)	100
Towing capacity	
Braked (kg)	2200
Unbraked (kg)	750
Maximum downball weight (kg)	90

*The Start/Stop system is designed to reduce fuel consumption and CO2 emissions. It achieves this by automatically switching off the engine while the vehicle is stationary and then starting it again automatically when the driver wants to drive off. There are certain operating conditions where the Start/Stop system is deactivated (e.g. during engine warm-up), please refer to the owner's manual for full operating information. ‡Please note figures are sourced from overseas data where equipment levels by model variant may vary. **Fuel consumption figures according to ADR 81/02 derived from laboratory testing. Factors including but not limited to driving style, road and traffic conditions, environmental influences, vehicle condition and accessories fitted, will in practice in the real world lead to figures which generally differ from those advertised. Advertised figures are meant for comparison amongst vehicles only.

Welcome to Care-Free Ownership

Škoda Care is about making sure that same level of attention to detail remains long after you've made your purchase, making owning a Škoda as fantastic as buying one.

7 YEAR WARRANTY[^] UNLIMITED KM

After getting behind the wheel of a Škoda, it's not hard to see why they're so beloved by their owners. Quite simply, Škoda vehicles are made to be driven and we want to keep your journey a long and happy one. And the way it works is simple. Škoda Australia provides a 7 Year/Unlimited Kilometre Warranty[^] on all new vehicles. Every new Škoda vehicle includes one year Škoda Assist[±] (Roadside Assistance), from the warranty start date. To thank you for your loyalty, complimentary Service Initiated Roadside Assistance (SIRA for short) will be activated if the vehicle is returned to an authorised Škoda Dealer for scheduled service, as per the Škoda Service Schedule milestones. For more information and eligibility, please visit www.skoda.com.au/owners/roadside-assistance

Škoda Service Pricing

No hidden expenses, no nasty surprises. Škoda Service Pricing applies to the first 6 scheduled services for your Škoda, occurring every 12 months/15,000 km (whichever occurs first).*

Genuine Parts

You don't have to be a genius (AKA a Škoda technician) to know that non-genuine parts aren't as good as using genuine ones. Our philosophy towards fixing your car is simple; the parts we use are identical to the parts used in the production of your car originally. Genuinely. And with a nationwide, two year, unlimited kilometre warranty[^] on all genuine parts, peace of mind comes easily too.

Service Packs

Why worry about handling payment of your services on an ad-hoc basis when you already know you need to get them annually? Conveniently, you can save time by pre-paying your servicing with a 7 Year/105,000km (whichever occurs first) or a 5 year/75,000kms (whichever occurs first) Škoda Service Pack at any of our Škoda dealers. That way you can simply book a service time that suits you, and the costs are already covered. your car, serviced at your convenience.

[^]Conditions and exclusions apply, see www.skoda.com.au/owners/warranty. Your rights under this warranty are provided in addition to, and in some cases overlap with, consumer guarantees under the Australian Consumer Law and do not limit or replace them. [±]Škoda Assist (Roadside Assistance) Conditions and exclusions apply, see <https://www.skoda.com.au/own/roadside-assistance>. *Škoda Service Pricing is current as at the date the customer obtains a price from the Škoda Service Price Calculator or from a participating authorised Škoda Dealer and is subject to change without notice. Customers are advised to confirm current pricing on the Škoda Service Pricing Calculator or with an authorised Škoda Dealer on the day of each Scheduled Service. Škoda Service Pricing is available at participating Škoda dealers on Fabia, Yeti, Octavia, Rapid, Scala, Kamiq, Roomster, Superb, Karoq and Kodiaq models first sold by an authorised Škoda dealer on or after 1st July 2015. Škoda Service Pricing applies to the cost of standard items in each of the first 6 standard scheduled services of your vehicle which are scheduled to occur at every 15,000 km/12 month interval (whichever occurs first). Exclusions and conditions apply. For details on pricing, items not included in the Service Price and for full terms and conditions click here. Škoda Australia reserves the right to at any time modify or discontinue the Škoda Service Pricing program. [^]Please check your engine code in your service or owner manual (if you have already purchased the vehicle) or confirm your engine code with your Škoda dealer prior to vehicle purchase (if you have not yet purchased the vehicle). Škoda Service Packs are available from authorised Škoda Dealers or online from Škoda Australia official website, for all models and covers standard items as contained in each scheduled service interval only. The New Car Service Packs can only be purchased prior to the first scheduled service and up to 15,000 km/12 months (whichever occurs first). The timeframe takes effect from when the vehicle is first reported in our system as 'sold'. The Used Car Service Packs can be purchased after the first 15,000 km/12 months scheduled service. The Top-up Service packs can be purchased based on the eligibility criteria as detailed in the terms and conditions. Discount structure varies by model. For details of what is not included in a scheduled service, please refer to the program terms and conditions available here. #For more information and eligibility, please visit <https://www.skoda.com.au/promotions/promotion-detail/service-maintenance-subscription-plan>.

Remove Any Doubt with Škoda Choice.

Škoda Choice[±] is a flexible finance program that allows you to guarantee your vehicle's minimum future value[±] at the time of purchase, giving you peace of mind knowing the value of your Škoda is secured.

- ✓ Freedom to tailor your contract term and kilometre allowance to suit your lifestyle.
- ✓ Fixed interest rate for the life of your Loan with no account keeping fees.
- ✓ At the end of your Škoda Choice contract you can select from three simply clever options – trade-in, retain or return.
- ✓ Opportunity to upgrade your Škoda more often, enjoying the latest model with the best innovations and technology.

How it works

- Step 1** Choose your favourite Škoda model.
- Step 2** Choose your preferred term* of 12, 24, 36, 48 or 60 months, and an annual km allowance.
- Step 3** At the end of your chosen term, select from one of the three end of term options:

Trade in

If you wish to trade-in your Škoda for a new vehicle, all you need to do is return it to the dealership. If the trade-in value is higher than the Guaranteed Future Value[±], you can use this equity towards your new vehicle.

Retain

If you prefer to retain your Škoda, simply let us know. Provided that you also meet the relevant payment obligations under your contract, you can purchase your vehicle outright for the Guaranteed Future Value amount locked in at the start of the contract[±]. Then your Škoda is yours to keep. Or you can choose to refinance your balloon at the end of the term.

Return

All you need to do is hand your car back and, if the vehicle meets the agreed kilometre and fair wear and tear requirements[±], you will have no more to pay.

For more information on our Guaranteed Future Value program, visit <https://www.skoda.com.au/finance/skoda-choice>

[±]Škoda Choice has a Guaranteed Future Value (GFV) which is the minimum value of your vehicle at the end of your finance contract as determined by Škoda Financial Services (SFS) ABN 20 097 071 460, Australian Credit Licence 389 344. If you decide to return your vehicle to SFS at the end of your term, SFS will pay you the agreed GFV, which will be put against your final payment subject to fair wear and tear conditions and agreed kilometres being met. At the end of your term, you can elect to (1) trade-in; (2) return; or (3) retain the vehicle by paying the GFV owed to SFS at the end of the loan term after all repayments have been made. You will be liable for any loan contract deficit and additional charges apply if you exceed the nominated kilometre allowance and/or the vehicle is not in an acceptable condition. Available on new, demonstrator and Certified Pre-owned Škoda vehicles. To see if this product is right for you, please see our Target Market Determination on our website and/or seek independent advice. *Subject to a credit assessment and SFS lending criteria. Fleet, government, rental and used car buyers, hire car and chauffeur companies excluded.
